

# Crypto Pulse Community Policy

Welcome to the Crypto Pulse Community, where we prioritize the ethical and effective promotion of crypto projects. Our community is committed to maintaining a space that supports both project creators and crypto enthusiasts, fostering a transparent and well-regulated environment for all members.

## 1. Respect and Professionalism

- We expect all members to engage respectfully with each other. Abusive language, harassment, or any form of discrimination will not be tolerated.

## 2. Quality of Content

- Posts should add value to the community. We encourage sharing educational resources, project updates, market insights, and discussions that contribute to the growth of the crypto ecosystem.

## 3. Promotion of Crypto Projects

- To ensure projects are promoted ethically and effectively, we have established guidelines for how projects are to be showcased within our community:

- Transparency: All project updates and promotional posts must clearly communicate the project's purpose, roadmap, and value proposition.

- Honesty: Any sponsored posts or paid promotions must be disclosed. We do not tolerate misleading claims or information.

- Community-First: Projects should actively engage with our members, respond to queries, and provide regular updates.

#### 4. Pin Post/Updates for Project Promotion

- In order to maintain a sustainable model for project visibility, a \$200 payment is required for regular pinned posts or project updates. This allows your project to reach a larger audience by being featured prominently in the community.
- This payment ensures long-term exposure and is compulsory as part of our community policy for promoting projects.

We are excited to help you grow your project while maintaining the highest ethical standards.

Thank you for being a part of the Crypto Pulse Community!
